MOTOR YACHT

YERSIN

Step aboard **YERSIN**, a 77.6-metre explorer yacht purpose-built for global adventures with minimal environmental impact. Delivered by French shipyard **Piriou** and certified by Bureau Veritas as a Clean Ship, **YERSIN** was engineered to be 95% recyclable and operates with ultra-low emissions and exceptional fuel efficiency. Her robust steel hull and full-displacement design ensure safety and stability in all sea conditions, while a quiet, efficient propulsion system allows for a cruising speed of 11 knots. Onboard, cutting-edge waste and water treatment systems, dynamic positioning (eliminating the need for anchoring), and biocide-free antifouling coatings help safeguard fragile marine ecosystems. Designed to sustain up to 40 people for 50 days at sea without resupply, **YERSIN** is made for exploring the planet's most remote and untouched destinations.

Her expansive exterior decks are thoughtfully designed for both exploration and leisure. The sun deck is a highlight, featuring panoramic views, a barbecue area, sun loungers, and a jacuzzi. The yacht's interiors take inspiration from the elegant ocean liners of the 1930s, blending Art Deco charm with modern comfort. The spacious owner's suite includes a private office and fold-down balconies, while seven additional guest cabins offer flexible accommodation for up to 16 guests. A wellness area on the lower deck includes a hammam, jacuzzi, gym, and massage room. Multiple lounges and two dining areas offer inviting spaces for everything from casual gatherings to formal dinners. With an elevator connecting all decks and full wheelchair accessibility, **YERSIN** is committed to inclusivity and guest comfort.

Her toy collection is equally impressive, with a fleet of tenders including a Wajer 37 and several Zodiacs, along with a fully equipped dive centre for cold-water exploration, inflatable sailboats, kayaks, stand-up paddleboards, and ...
