ALMAX

Sanlorenzo 50Steel ALMAX is a 50-meter displacement superyacht delivered in 2024 by the Italian shipyard **Sanlorenzo**. She is the world's first superyacht equipped with a Reformer Fuel Cell system powered by methanol, generating zero-emission electricity and underscoring the shipyard's commitment to sustainability and technological innovation.

Her exterior design is by Zuccon International Project, while the interiors were curated by Lissoni & Partners. **ALMAX** features a unique five-deck asymmetrical layout that creates seamless transitions between indoor and outdoor spaces. The interior is defined by a minimalist contemporary style, with an emphasis on natural light, clean lines, and volume. Panoramic windows expand the sense of space and offer sweeping sea views.

Accommodation is provided for up to 10 guests in five staterooms. The full-beam owner's suite on the main deck includes a private office, two walk-in wardrobes, and a spacious bathroom. On the lower deck, there are two VIP suites and two twin cabins. A central glass staircase connects key areas across the decks, including the gym on the lower deck, the main salon, dining area, and sky lounge.

A standout feature is the 135-square-meter Ocean Lounge at the aft lower deck, a convertible space that functions as a beach club with direct access to the sea. The upper deck offers a shaded al fresco dining area, while the sundeck is outfitted with a two-tiered pool and panoramic lounge.

Technically, **ALMAX** is equipped with advanced energy management and power optimization systems aimed at reducing her environmental footprint. For on-water activities, she carries a 12-meter BG42 tender, four Seabobs, electric jet skis, and a variety of water toys.

Available for charter in the Mediterranean, **ALMAX** combines cutting-edge technology, refined comfort, and a forward-thinking approach to eco-friendly yachting....
