MOTOR YACHT

MICHISAN

The motor yacht **MICHISAN**, built by **Sanlorenzo** and delivered in 2026, is part of the **SL90 Asymmetric** range - a modern 27-meter yacht that combines innovative architecture, high performance, and a thoughtfully designed layout.

A defining feature of the model is her asymmetric design, which increases interior volume and creates a brighter, more open main deck. The saloon is arranged as a single, cohesive space combining lounge and dining areas, while full-height panoramic glazing brings in natural light and maintains a strong visual connection with the sea.

MICHISAN accommodates up to eight guests across four en-suite cabins, including a full-beam master suite on the main deck, a VIP cabin, and two guest cabins. The crew of four is housed in separate quarters, ensuring both professional service and guest privacy.

Outdoor areas are designed for a variety of onboard experiences. The flybridge serves as the primary open-air space, offering areas for sunbathing and socializing. The aft deck features an alfresco dining area, while the swim platform provides easy access to the water. For active use, the yacht is equipped with a selection of water toys, including a tender, jet ski, seabob, and an inflatable platform.
