70 SUNREEF POWER

Introducing the **70 Sunreef Power**, a dynamic and elegant luxury catamaran that continues the **Sunreef Yachts** legacy with full customization options. As part of the new line of motor catamarans, the **70 Sunreef Power** stands out with its seamless blend of design, functionality, and innovation.

The expansive main deck salon connects to the aft cockpit, creating a large, semi-open dining and sunbathing area. With a skylight, panoramic glazing, and wide sliding doors, the interior is flooded with natural light. The yacht's massive hull volumes offer endless possibilities for custom layouts, ensuring every aspect of the interior can be tailored to your preferences.

For added privacy, the crew quarters and galley can be located aft and accessed exclusively from the cockpit. The aft cockpit dining area is close to the water, making it perfect for outdoor meals and water sports activities with easy access to toys and the sea. The innovative aft garage and hydraulic platform allow for effortless launching of tenders and jet skis.

The **70 Sunreef Power** features a large foredeck terrace with standalone furniture and a lounge area, protected from sun and wind, ideal for relaxation. The flybridge offers unparalleled comfort with ample space for a pool, bar, dining area, and large sun loungers, creating the perfect setting for entertaining and unwinding.

Available in both eco and classic versions, the **70 Sunreef Power** is built from composite materials, measuring 21.3 meters in length and 11.35 meters in beam. Classified as Category A, this luxurious catamaran, powered by two 600 HP engines, embodies the perfect blend of power and elegance, offering an exceptional yachting experience.
