STELLA DEL NORD

STELLA DEL NORD is a 26.1-metre explorer motor yacht built in 2015 by **Cantiere delle Marche** as part of the renowned Darwin 86 series. Featuring a steel hull and aluminium superstructure, she is designed for long-range cruising in all weather conditions, with a beam of 7.43 metres and naval architecture focused on stability, reliability, and energy efficiency.

Powered by twin CAT C12 diesel engines (385 hp each), **STELLA DEL NORD** cruises comfortably at 9 knots, reaching a top speed of 12 knots. Her efficient hull design delivers a transoceanic range of over 3,300 nautical miles, making her ideal for extended autonomous voyages.

She accommodates up to 10 guests in four en-suite staterooms, with interiors thoughtfully designed for comfort and practicality during long stays onboard. Large windows flood the saloons with natural light, while open deck areas and al fresco dining spaces offer excellent connection to the sea.

Teak decks throughout add to the yacht's traditional explorer character, and the layout is optimized for both private cruising and adventure-oriented programs. Built to the standards of ocean-going expedition vessels, **STELLA DEL NORD** is in excellent technical condition and ready to cruise.

Combining seakeeping ability, autonomy, and onboard comfort, **STELLA DEL NORD** is a reliable platform for owners seeking to explore remote destinations in safety and style.
