LADY CHRISTINE

LADY CHRISTINE is a 68-meter motor yacht built by **Feadship** in 2010, designed by De Voogt Naval Architects in collaboration with Rodney Black Design. She represents the finest of Dutch yacht-building — precision engineering, flawless craftsmanship, and understated elegance.

In 2025, **LADY CHRISTINE** underwent a major refit at the **Feadship** shipyard, which included comprehensive upgrades to all technical systems and a full interior refresh. Since her launch, the yacht has remained under single-family ownership and has been meticulously maintained throughout her life.

Constructed with a steel hull and aluminum superstructure, **LADY CHRISTINE** offers exceptional strength, seaworthiness, and durability. She accommodates up to 10 guests in five staterooms, including a spacious owner's suite with panoramic views occupying much of the upper deck. A crew of 19 ensures impeccable service, comfort, and privacy on board.

The interiors are designed in a serene palette of natural tones, featuring custom-made furnishings, fine materials, and elegant detailing, creating a refined yet welcoming atmosphere. With a beam of 12.5 meters, the yacht's interior spaces feel remarkably open and well-proportioned.

Her exterior decks provide multiple areas for relaxation and alfresco dining. A large jacuzzi is positioned aft on the main deck, seamlessly connecting to a generous beach club at the water's edge. **LADY CHRISTINE** is also equipped with a helicopter landing pad, offering effortless access for extended cruising and guest transfers. Powered by twin MTU 16V 4000 M60 engines, she cruises comfortably at 12 knots and reaches a top speed of 15.6 knots, with an impressive range of up to 5,000 nautical miles.

LADY CHRISTINE embodies the essence of a **Feadship** yacht — timeless design, superior build quality, and exceptional comfort — crafted for owners who appreciate long-range cruising in complete luxury.
