MOTOR YACHT

LADY VICTORIA

LADY VICTORIA is a 27-meter motor yacht built by the renowned Italian shipyard **Ferretti Yachts**, designed in collaboration with Studio Zuccon International Project and Ferretti's in-house engineering team.

On the lower deck, she offers a master suite with panoramic window and a private bathroom, along with two guest cabins, each featuring an en suite. The interiors are styled in neutral tones with fine wood and leather finishes, creating a warm and elegant atmosphere. The main salon features a dining area, plush seating, and a Bose and JL Audio entertainment system, while the galley is fully equipped with Gaggenau and Bosch appliances. Additional onboard amenities include a 220 L/h watermaker, Miele washer and dryer, and a climate control system for optimal comfort.

Her outdoor areas are designed for relaxation and socializing, featuring a flybridge with a Jacuzzi, bar, and sun loungers, as well as an aft dining area for eight, a hydraulic gangway, and a 400-kg crane.

Powered by twin MTU M91 engines delivering 2,000 hp each, **LADY VICTORIA** cruises comfortably at 25 knots and reaches a top speed of 30 knots. The Mitsubishi Anti-Roll Gyro system and bow thrusters ensure stability and maneuverability, while the Raymarine navigation suite includes radar, autopilot, GPS, and AIS.

Between 2013 and 2018, the yacht underwent significant upgrades, including new teak decking, modernized audio systems, new domestic appliances, and the installation of 65" and 43" televisions in the salon and on the flybridge, respectively.

For watersports and entertainment, **LADY VICTORIA** comes equipped with Yamaha SHO and Sea-Doo Spark jet skis, two Seabobs, diving gear, and SUP boards.

LADY VICTORIA Ferretti 881 is a versatile and well-equipped yacht, combining reliable performance, Italian craftsmanship, and luxury comfort — ideal for both private ownership and charter use.
