MAJESTY 175

Majesty 175 is the flagship of **Gulf Craft**, a 56-meter superyacht launched in 2021 in the United Arab Emirates. It holds the distinction of being the largest composite-built yacht in the world, constructed entirely from fiberglass and certified to the MCA-LY3 standard for vessels over 500 GT. The yacht's interior and exterior design were created by Cristiano Gatto, blending contemporary luxury with technical innovation. Spanning four decks, **Majesty 175** accommodates up to 14 guests in seven staterooms, including a stunning owner's suite on the upper deck with a private terrace, pool, and lounge area. The interior layout features expansive salons, a panoramic dining area, and multiple outdoor lounge spaces designed for relaxation and entertaining.

Among the yacht's standout features are an infinity pool on the foredeck, a beach club aft, and a convertible sky lounge that can transform between enclosed and open-air configurations. With a beam of 9.6 meters and a shallow draft of just 2.05 meters, **Majesty 175** can access shallow bays and coastal marinas while maintaining impressive interior volume and stability.

Powered by twin MTU engines producing 2,012 hp each, she achieves a cruising speed of 13 knots and a maximum speed of 16.5 knots. With 61,000 liters of fuel and 16,000 liters of fresh water, she offers excellent autonomy for long-range cruising. Two 175 kW Kohler generators provide reliable onboard power.

Built with advanced noise and vibration reduction technologies, **Majesty 175** ensures a quiet and smooth experience at sea. She is equipped with stabilizers, a watermaker, and a climate-control system, all meeting the highest standards of superyacht comfort.

A true statement of engineering excellence and bespoke craftsmanship, the **Majesty 175** combines technical reliability, spacious design, and luxury personalization, making her ideal for extended voyages in absolute comfort and style.
