MAJESTY 160

MAJESTY 160 — a 49.5-metre motor yacht that seamlessly blends advanced engineering, refined design, and exceptional onboard comfort. The project was developed by Cristiano Gatto Design Studio in collaboration with Van Oossanen Naval Architects, combining Italian elegance with Dutch naval precision. The guiding principle behind the **MAJESTY 160** is the seamless connection between indoor and outdoor living. Expansive social areas include a sun deck, a pool on the main deck, a beach club, fold-down balconies, and a large swim platform — all designed to maximize the sense of proximity to the sea and offer a variety of leisure experiences.

The interiors follow a contemporary, functional aesthetic with a focus on comfort and spatial harmony. Accommodation is provided for 14 guests across seven staterooms, including a full-beam owner's suite on the main deck and six guest cabins on the lower deck. The crew of nine is housed in six cabins, including a dedicated captain's cabin on the upper deck.

With a beam of 9 metres and a draft of 2.3 metres, the **MAJESTY 160** has a displacement of approximately 420 tons. Propulsion is provided by twin CAT C32 engines of 2,200 hp each, ensuring efficient cruising performance. Power management is supported by two 99 kW generators and a 70 kW backup unit. Capacities include 44,890 litres of fuel, 14,270 litres of fresh water, and 5,440 litres each of grey and black water.

The **MAJESTY 160** embodies modern naval architecture and meticulous attention to detail, offering a balance of autonomy, intelligent layout, and timeless design — making her a perfect choice for extended voyages in complete comfort and style.
