MOTOR YACHT

WILLFUL

The **WILLFUL Maiores 27** is a motor yacht built in 2006 by the Italian shipyard **Fipa Italiana Yachts** and extensively refitted in 2020. She features two main decks and a flybridge equipped with a grill, dining area, and sun loungers. The hull is made of fiberglass with a white finish, and the decks are laid with teak and cream rubber inlays. The design was created by Roberto del Re.

The yacht accommodates up to nine guests in four cabins: a full-beam master, VIP cabin, double cabin, and a bunk cabin. The crew of four is accommodated in two cabins with one bathroom. Guest and crew areas are separated, ensuring both privacy and operational efficiency.

Navigation and communication systems include SSB Sailor HC 6301 MF/HF DSC, VHF, Raymarine radar, Furuno chartplotters, two autopilots, depth sounder, and compass. Both bow and stern thrusters are hydraulically controlled for easy maneuvering.

The electrical system includes flood sensors, automatic water pumps, and two 90-liter boilers. The galley is fully equipped with a 4-burner induction stove, oven, microwave, freezers, refrigerators, minibars, ice maker, dishwasher, and laundry facilities.

Entertainment features include TVs and stereo systems in all cabins, the saloon, crew areas, and on the flybridge. The yacht's layout, combining enclosed living areas, open decks, and dedicated crew zones, makes the **WILLFUL Maiores 27** ideal for coastal cruising, family vacations, or charter use.
