DOGE 500

OCEAN KING DOGE 500 — the flagship of the **DOGE** series by Design aLOT Studio, seamlessly combines the long-range autonomy of an expedition yacht with refined Italian design. This 50-metre vessel, featuring a steel hull and aluminium superstructure, is engineered for transoceanic passages with a range of up to 6,000 nautical miles, offering exceptional seaworthiness, efficiency, and comfort. Defined by its bold hull lines, vertical bow, and expansive panoramic glazing, the **DOGE 500** presents a striking and contemporary profile. The layout achieves a perfect balance between social and private spaces: the aft deck features two fold-down balconies, the owner's deck includes a private terrace with a pool, and the crew's nest lounge provides uninterrupted ocean views. The interiors reflect a contemporary minimalist style, crafted with natural tones and premium materials for a calm and sophisticated atmosphere. Accommodation is arranged across six cabins, including a spacious full-beam master suite, with flexible configurations available for either private ownership or charter operations. The engine room is built to commercial standards, with increased headroom, easy access, and an optimized layout for efficient maintenance. All systems are designed for extended voyages, ensuring minimal noise and vibration underway. Fully customisable in every detail, the **OCEAN KING DOGE 500** represents a new generation of explorer yachts — robust, capable, and elegantly styled — created for owners who value comfort, autonomy, and impeccable Italian craftsmanship.
