SUNREEF 35M ECO

Sunreef 35M Eco is an eco-friendly 35-meter sailing catamaran, designed by **Sunreef Yachts** in Poland using advanced composite materials and integrated solar panels. The yacht features specially engineered batteries and electric propulsion, offering quiet cruising while seamlessly combining sustainability with comfort. With a 14.7-meter beam, the yacht delivers a remarkable sense of space and light. The owner's suite is centrally located on the main deck with direct access to a private terrace, while the lower deck houses four guest cabins, each with its own ensuite. The crew quarters are fully separated to ensure guest privacy. The interiors are crafted from eco-friendly materials — including 3D wood and leather panels, eco-leather, and French boucle fabrics — creating a warm and refined onboard atmosphere. Exterior living spaces include a flybridge with a pool, bar, and sun loungers, as well as an Ocean Lounge aft with direct sea access, storage for diving and water toys, and a concealed tender garage. The **Sunreef 35M Eco** merges cutting-edge technology with **Sunreef** craftsmanship, providing a quiet, efficient, and comfortable sailing experience without compromising on performance or style. It is the perfect solution for owners seeking a next-generation sustainable superyacht.
