MOTOR YACHT

ORION

ORION is a 26-meter semi-custom motor yacht from the **Continental II** series, built in the Netherlands by **Van der Valk** in 2014. Featuring an enlarged beam and a flybridge with a hardtop, this all-aluminium yacht was constructed to CE Category A standards, ensuring strength, stability, and excellent seakeeping performance. In 2023, **ORION** underwent a comprehensive refit, which included full technical servicing and a complete interior refurbishment. The yacht's classic Victorian-inspired décor was refreshed with contemporary finishes, new soft furnishings, and lighting, creating an elegant and inviting atmosphere.

Accommodation is provided for up to 8 guests in 4 cabins, including a full-beam master suite and a spacious VIP cabin. The main salon combines a comfortable lounge with a dining area, while the outdoor decks offer multiple leisure options — an aft cockpit with dining space, a flybridge with bar and sun loungers, and a forward sunbathing area.

Powered by three Volvo Penta D13-800 diesel engines, **ORION** reaches a cruising speed of 21.5 knots and a top speed of 26.7 knots. Technical highlights include a Seakeeper M21000 gyro stabilizer, hydraulic swim platform, watermaker, Simrad navigation system, and Delta DB sound insulation.

After her 2023 refit, **ORION** is presented in excellent technical and aesthetic condition, fully equipped and ready for immediate cruising.
