

MOTOR YACHT

LADY PARISA

LADY PARISA — built in 2014 by **Princess Yachts** and designed by Bernard Olesinski, this yacht blends elegant styling, high performance, and spacious interiors. Her silver hull emphasizes a modern, memorable profile, while the 6.3 m beam ensures comfort on board.

The main salon is flooded with natural light through panoramic windows, a side sliding door, and a fold-down balcony, creating a seamless connection between interior and exterior spaces — ideal for entertaining or private relaxation. The lower deck accommodates 8 guests in 4 cabins, including a full-beam master suite with panoramic windows, a lounge area, and en-suite bathroom.

The flybridge features a large lounging area, bar, and electric hardtop, while additional alfresco dining and sunbathing areas are available in the bow and aft cockpit. A swim platform provides easy access for launching the tender.

Powered by twin MTU 12V2000 M93 engines (1,822 hp each), **LADY PARISA** reaches a cruising speed of 23 knots and a top speed of 28 knots. Stability and maneuverability are enhanced with ABT TRAC stabilizers, bow and stern thrusters, and modern navigation systems.

LADY PARISA is available for viewing in Bodrum, Turkey, and ready for immediate operation, offering a combination of style, performance, and luxury living at sea.
