PROJECT LIFE 85M

The **PROJECT LIFE 85M** is a revolutionary 85-metre yacht developed in collaboration between **Benetti**, Espen Øino International, and Zuretti Design.

Conceived with a strong focus on sustainability, comfort, and individuality, the yacht combines a diesel-electric propulsion system running on HVO biofuel with solar panels, an optimized hull, and a next-generation energy-efficient HVAC system, significantly reducing emissions and energy consumption. Interiors by Zuretti Design impress with floor-to-ceiling panoramic windows, fluid architectural lines, and bright, modern materials, creating a seamless connection between interior and sea.

PROJECT LIFE 85M accommodates up to 14 guests in seven cabins, including a master suite on the upper deck featuring a private terrace, office, lounge areas, and his-and-hers bathrooms. Expansive outdoor spaces include a pool on the main deck, a sun deck with jacuzzi and lounge areas, an al fresco dining area with Teppanyaki on the bridge deck, and a beach club on the lower deck with a bar, dining area, and direct sea access.

With a gross tonnage of 2,680 GT, a beam of 14 metres, and a draft of 3.5 metres, the yacht offers a cruising speed of 13 knots and accommodation for a crew of 31. Scheduled for launch in spring 2030, **PROJECT LIFE 85M** represents a perfect balance of elegance, space, and exceptional range — setting a new standard for the future of sustainable superyachts.
