NOTYNOG

NOTYNOG is a **Sanlorenzo SL90A** (2022) designed by Zuccon International Project with interiors by Marty Lowe. The model delivers enhanced interior volume and a fluid connection between the main living areas and outdoor decks.

A defining element of the layout is the asymmetric main deck. By shifting the port-side passageway outward, the interior footprint increases significantly, allowing for a wider, more open-feeling salon. Floor-to-ceiling glazing and a drop-down bulwark expand the functionality of the main guest area. The salon is furnished with pieces by Poltrona Frau, Minotti and Bonaldo, and includes a full dining area for eight guests.

Guest privacy and crew efficiency are central to the onboard layout. The full-beam master suite is positioned on the main deck and features an electric skylight, walk-in wardrobe and marble ensuite bathroom. The lower deck includes three guest cabins - a VIP and two twins. The four-person crew is accommodated in a dedicated service area with direct access to operational zones, ensuring discreet service throughout the charter.

The flybridge - equipped with a hardtop, bar, sun loungers and dining space - serves as the primary outdoor social hub. The foredeck offers an additional lounge and sunbathing area, while the hydraulic swim platform provides easy access to the water and toys.

Performance is powered by twin MTU 12V 2000 M96L engines, enabling a 29-knot top speed and a 25-knot cruising speed. Zero-speed stabilisers enhance comfort both underway and at anchor. The Garmin Diamond navigation suite features advanced autopilot, radar and GPS for precise, reliable operation.

Technical amenities include Starlink high-speed internet, an integrated multi-zone AV system, modern televisions and premium Miele galley equipment.
