NAVETTA 70

Absolute Navetta 70 is the new 21.27-metre model from **Absolute**, designed around a single guiding principle: maximum practicality and comfort while maintaining an uninterrupted visual connection to the sea.

The exterior layout is built around a completely reimagined flybridge, significantly updated from previous **Navetta** models. The flybridge is available in two configurations, each offering a relaxation area, dining space and helm station. On the main deck, the cockpit acts as a natural extension of the salon, reinforcing the open-flow concept.

The interior layout prioritises freedom of movement between all areas: large sliding glass doors, increased ceiling heights and minimal level changes ensure the entire volume is used efficiently. The galley, positioned on the main deck, is designed in a style more typical of larger yachts, enhancing day-to-day practicality and guest interaction.

Engineering solutions allow for unusually generous spaces within a yacht of this length. The crew quarters are fully separated from guest areas and include their own kitchenette, ensuring smooth, autonomous crew operations without disturbing guest privacy.

One of the standout features of the model is the integration of solar panels into the flybridge hardtop. These panels supply additional power to auxiliary systems, reducing generator load and improving overall energy efficiency - both underway and at anchor.

Absolute Navetta 70 presents a thoughtful blend of comfort, usability and forward-thinking design, suited to owners seeking a contemporary cruising yacht that makes the most of every metre.
