MOTOR YACHT

ALTHEA

Built by **Admiral** and delivered to her owner in 2021, **ALTHEA** stands out as one of the strongest offerings in the 50-metre superyacht segment. Part of the **Atos 47** series, she combines a sub-500 GT aluminium construction with contemporary design and performance tailored for long-range cruising.

The interior layout is designed for comfortable extended use. **ALTHEA** accommodates up to 11 guests in five cabins, including a full-beam master suite on the main deck with large windows and a well-considered layout. The lower deck hosts two VIP cabins and two twin cabins with en-suite bathrooms, one of which is equipped with an additional Pullman berth.

The aft beach club is one of **ALTHEA's** signature features. Fold-out side terraces and a wide swim platform create an expansive waterfront lounge ideal for relaxation and easy access to the sea.

Powered by twin Caterpillar C32 ACERT engines, she reaches a cruising speed of 12 knots and a maximum speed of 19 knots. A fuel capacity of 48,000 litres and a volume of 499 GT support long-distance itineraries, while her all-aluminium construction and RINA classification reflect a high engineering standard.

Following a 2025 refit, **ALTHEA** is presented in excellent technical condition and is ready for immediate use.
