MOTOR YACHT

WALLYPOWER50X PROJECT

Wally 50X - a motor yacht measuring 15.4 meters, combining performance with the signature **Wally** style, offering a unique on-water experience. The yacht includes all the amenities of its predecessor, the 58X, with the added flexibility of an open cockpit and aft deck. The modular deck layout allows the yacht to be adapted for various types of use.

The design provides easy access to the water from the transom, making it perfect for water activities. The interior features a cabin for two with a bathroom, transforming the **Wally 50X** into a fully functional yacht for overnight stays or day cruises. The yacht can accommodate up to 12 guests on board for day trips.

Powered by four Mercury Racing outboard engines, each delivering up to 500 hp, the yacht reaches a top speed of 54 knots and offers a range of 280 nautical miles. With four 400 hp engines, it still reaches 48 knots and can cover 320 nautical miles. Optional Mercury Racing V8 500R engines offer even more power for those seeking maximum performance. With a cruising speed of 34 knots (36 knots with the optional engines), the **Wally 50X** delivers unmatched speed and comfort, making it the ideal choice for owners who value performance, versatility, and convenience.
