MOTOR YACHT

SIMON

The **SIMON Pardo GT75**, built in 2024, is a 75-foot motor yacht that combines Italian style, performance, and comfort. It offers spacious interior and exterior areas with four cabins for 8 guests, including a full-beam master suite on the lower deck and three additional cabins (1 VIP and two with single beds).

Equipped with three Volvo IPS 1050 engines, the **GT75** reaches a maximum speed of 20 knots and a cruising speed of 12 knots. With a fuel tank capacity of 11,500 liters, the yacht offers a range of 2,000 nautical miles, making it ideal for long-distance cruises.

The interior is designed in an elegant style, with large windows that provide natural light and an open layout that seamlessly connects the salon and galley. The exterior features a cockpit area with electrically operated side terraces, a sunshade, and an electric bimini. The swim platform with transformer and a garage for a tender or jet ski enhance convenience.

SIMON is equipped with advanced technologies, including Garmin radar, VHF, dynamic positioning system, and an entertainment package with a 50-inch TV and high-quality sound system. The exterior deck is fitted with LED lighting, and the salon includes a wine cooler for cozy evenings.
