BALANCE

BALANCE, built in 2021 by **Sanlorenzo**, combines stylish design with exceptional performance. The spacious salon on the main deck is flooded with natural light through panoramic windows, offering breathtaking views of the sea. The dining area for 6 guests and a lounge zone create the perfect setting for relaxation, especially in warm weather.

What sets **BALANCE** apart is its asymmetric layout, which maximizes the salon space, providing ample room for leisure. The master cabin, located on the lower deck, offers privacy with panoramic windows, blackout curtains, LED lighting, and marble floors. The ensuite bathroom features a steam shower. Also located on the lower deck are two additional VIP cabins, each with its own bathroom, along with a guest cabin.

The yacht's flybridge is equipped with an electric hardtop, bar, and lounge area. It also features a large dining table and spacious sunbeds. The electric bimini extends to provide additional shade. **BALANCE** also boasts a spacious beach club with a garage for the tender and water toys. The hydraulic swim platform makes accessing the sea even easier.

Powered by two MAN V12-2000 engines, each delivering 2000 horsepower, **BALANCE** reaches a top speed of 30 knots and a cruising speed of 23 knots. Stabilization ensures a smooth ride both underway and at anchor.
