ONE ZERO

ONE ZERO is a 37.14-metre **Numarine 37XP** explorer yacht delivered in 2024. Combining long-range cruising capability, substantial interior volume and exceptional comfort for extended voyages, she has quickly established herself as one of the most desirable explorer yachts in the sub-40-metre segment.

Built on the acclaimed **37XP** platform, **ONE ZERO** features a full-displacement steel hull and composite superstructure. The yacht was developed by renowned naval architect Umberto Tagliavini, with exterior styling by Can Yalman and interiors designed by Rezzan Benardete Interiors.

With an overall length of 37.14 metres and an 8-metre beam, **ONE ZERO** offers approximately 345 GT of internal volume and accommodates up to 12 guests in 6 cabins. Separate crew quarters provide accommodation for up to 8 crew members. Thanks to her wide-body configuration, the yacht delivers interior spaces typically associated with significantly larger vessels.

One of her standout features is the spacious beach club, complete with a waterside lounge area, swimming platform and sauna, creating a dedicated relaxation space at sea. The primary outdoor entertainment area is the 84-square-metre flybridge, which features a bar, al fresco dining area, lounge seating and an additional helm station.

Power comes from twin MAN engines producing 800 horsepower each. **ONE ZERO** reaches a top speed of approximately 14 knots, cruises comfortably at 12 knots and offers an impressive range of around 6,000 nautical miles at 8 knots, making her ideally suited to long-distance autonomous cruising.

Presented in turnkey condition, **ONE ZERO** combines the advantages of a recent build, exceptional range and a highly practical layout. As a result, she stands among the most compelling explorer yacht opportunities currently available in the 35–40 metre category.
