SEA STAR

SEA STAR is an **Azimut Grande 26M** delivered in 2025 and presented in genuine as-new condition. Covered by the shipyard's warranty until 2027, she offers a rare opportunity to acquire one of **Azimut's** most successful models without the lead time associated with a new-build project.

Designed by Alberto Mancini with interiors by Achille Salvagni Architetti, **SEA STAR** combines contemporary Italian styling, a highly practical layout and interior volume more commonly associated with significantly larger yachts. Expansive panoramic windows and an open-plan design flood the interior with natural light while maintaining a constant visual connection to the sea.

Accommodation is arranged for up to 10 guests in 5 cabins, one of the defining features of the **Grande 26M** platform. The full-beam owner's suite is positioned on the main deck, offering exceptional privacy and generous proportions, while four additional guest cabins are located on the lower deck. Separate crew quarters ensure discreet service and complete guest privacy throughout every voyage.

The main saloon combines lounge and dining areas within a bright, contemporary interior finished with natural materials, fine woodwork and marble accents. Large windows further enhance the sense of openness and connection with the surrounding seascape.

One of the yacht's standout features is **Azimut's** innovative Deck2Deck™ concept, which expands the usable space of the aft cockpit and strengthens the connection between the yacht and the water. This versatile area is equally suited to relaxation, al fresco dining and enjoying waterside activities while at anchor.

The flybridge provides additional outdoor living space with comfortable lounge seating, an al fresco dining area, wet bar and a hardtop featuring an opening roof section. Forward, a separate lounge area with sunpads and a table offers another inviting space for enjoying panoramic views and spending time outdoors.

SEA STAR is powered by twin MAN V12 engines, each producing 1,550 horsepower, delivering a cruising speed of 24 knots and a maximum speed of 26 knots. A pod-drive propulsion system and stabilisers contribute to excellent manoeuvrability and a high level of comfort both underway and at anchor.

Fully specified and ready for immediate use, **SEA STAR** represents an exceptional opportunity to acquire a nearly new **Azimut Grande 26M**, combining contemporary design, five-cabin accommodation and proven performance in one highly desirable package.
