## SPEEDY BEAR

**SPEEDY BEAR** is a **Riva 88' Domino Super** delivered in 2018 and one of the final hulls built in this highly successful and now discontinued series. As Hull No. 37, she represents a rare opportunity to acquire one of the most sought-after modern **Riva** models, combining iconic Italian styling, exhilarating performance and exceptionally low engine hours.

Designed by Officina Italiana Design and built at the renowned **Ferretti Group** shipyards, the **88' Domino Super** remains one of the most recognisable sport yachts ever produced by **Riva**. Her metallic grey hull, sleek profile and distinctive sporting lines create an unmistakable presence on the water and continue to define the timeless appeal of the model.

Privately owned since new and never offered for charter, **SPEEDY BEAR** has benefited from attentive ownership and a consistently high standard of maintenance throughout her life. As a result, she is presented in outstanding condition and remains a particularly attractive example of the series.

Power comes from twin MTU 16V 2000 M96L engines, which have accumulated only approximately 557 hours. This figure is significantly below average for a yacht of her age and reflects limited private use and careful ownership. The low engine hours further enhance her appeal, making **SPEEDY BEAR** one of the most compelling opportunities currently available within the **Riva 88' Domino Super** market.

Combining the exclusivity of being one of the final hulls produced, the benefits of private ownership and the enduring prestige of the **Riva** brand, **SPEEDY BEAR** stands out as an exceptional example of one of Italy's most iconic modern sport yachts.
