MOTOR YACHT

CONDOR A

CONDOR A is a 42.4-metre motor yacht built by **Tecnomar**, meticulously maintained and used exclusively for private purposes. Following a full refit in 2024, the yacht now features updated systems and a refreshed aesthetic, combining classic lines with modern functionality.

The yacht's design, developed with Theofanis Bobotis, seamlessly blends interior and exterior spaces while maintaining an elegant profile. The refit included refreshed teak decks, a modernised main salon with a new multimedia system, and a more spacious aft deck, perfect for alfresco dining and relaxation. Its sleek blue hull and wide decks underscore the yacht's character and presence.

Accommodation is provided for 10 guests across five cabins, including a full-beam master suite on the lower deck and four contemporary guest cabins featuring natural materials and stylish finishes.

Powered by two MTU 16V 396 TE94 diesel engines of 2,800 hp each, **CONDOR A** achieves a cruising speed of 17 knots and a maximum speed of 18 knots. With a gross tonnage of 372 GT and a fuel capacity of 17,700 litres, the yacht offers a range of up to 1,600 nautical miles, making it ideal for extended voyages.
